

SPREAD JOY, NOT COVID-19

Ways to Keep Your Family Safe & Healthy This Holiday Season

The holidays in Wisconsin are so special! They are the perfect time to celebrate, reconnect with loved ones, and make lasting memories. This season, let's give the gift of health and protect the people we care about most by making sure everyone in the family is up to date with their COVID-19 vaccine.

✓ Give the Gift of Protection

From festive gatherings with friends to well-loved winter traditions with family, don't let preventable illness interrupt your holiday magic! Schedule a COVID-19 vaccine for your whole family so you can enjoy the holidays without worrying about missing events or having to take last-minute sick days.

✓ Protect Your Loved Ones, Especially the Most Vulnerable

There are members of our families, like grandparents, newborns, and those with health concerns, that are more likely to get seriously ill from COVID-19. If you plan on reuniting with your grandmas and grandpas, or you are meeting the newest baby in the family, make sure you've taken every step to keep them safe by getting vaccinated against COVID-19.

✓ Don't Miss Out on Holiday Traditions

Whether it's checking out your neighborhood's light displays, going to your kids' holiday concerts, or making treats with friends, COVID-19 shouldn't be part of your plans! Keep the joy of the holiday season by getting your family vaccinated ahead of time.

✓ Expecting? Keep You & Baby Safe!

If you're pregnant or expecting this season, getting the most up-to-date COVID-19 vaccine is a safe and effective way to protect both you and your baby during visits with family, outings with friends, and holiday celebrations. With the COVID-19 vaccine, you are more likely to stay healthy, minimize any symptoms, and focus on what truly matters this time of year - your growing family!

Get vaccinated today!

Take a few minutes now to schedule your family's vaccine appointments and don't forget to ask your doctor about getting the COVID-19 and flu vaccines at the same time, to save time, and limit sick days during the best time of the year!

**Let's make this winter about laughter, love,
and shared moments, not shared germs!**
