

YOUR FAMILY'S DOCTOR & YOUR FAMILY'S PARTNER.

Helping your kids grow up healthy, together!

YOU'RE NOT ALONE IN THIS

Whether it's a pediatrician, family doctor, or clinic provider, your child's doctor wants the same thing you do:

- ✓ A happy, healthy child
- ✓ Fewer sick days
- ✓ A strong start in life

YOUR CLINICIAN GETS IT!

Many doctors and clinicians are parents too. They know what it's like to worry, wonder, and want the best.

- ! They won't recommend anything they wouldn't choose for their own children. That includes vaccines, treatment plans, and everyday advice.

A TEAM YOU CAN TRUST

You and your doctor are partners in care. That means:

Listening to your questions

Respecting your concerns

Supporting your family's goals

Helping your child grow with confidence

Good care is built on trust, and your clinician is here to earn it!

WHOLE-CHILD WELLNESS, EVERY STEP OF THE WAY

Your clinician is there for:

- Newborn visits
- School and sports physicals
- Immunizations
- Parenting questions
- Mental health support
- Teen health and beyond

From first steps to graduation day, your doctor is part of the journey.

TAKE THE NEXT STEP

- ✓ Schedule your child's next well-visit
- ✓ Ask your doctor what vaccines or screenings are due
- ✓ Use each visit as a chance to check in, not just check boxes

A HEALTHIER FUTURE STARTS HERE

You're doing a great job. And your care team is here to help. Let's keep kids healthy, safe, and ready to thrive, together.
